PROFILE

Software engineer with more than 1 year of experience. 8 months as a Backend Engineer in a company with a health system domain (audy dental and health facility data management) and finance (payment gateway). 7 months as a bootcamp student at Eduwork with various learning especially MERN. Continue to learn about problem-solving skills (algorithms, data structures, system design) and latest technologies that are critical for a software engineer. Passionate about technology, driven by high curiosity with good adaptability (fast learner).

WORK EXPERIENCE

PT. TEKNOLOGI MEDIA MEDIKA (ASSIST.ID)

Pekanbaru, ID

BackEnd Developer - Contract

Jul 2022- Feb 2023

- Collaborated with the product manager to handle Audy dental client feature creation requests as a backend developer.
- Designed over 50 RESTful APIs for the Audy dental health facility system using Node.js, MongoDB, LoopBack, Express.js, and other technologies.
- Performed manual testing of the developed code.
- Refactored the existing code to improve its quality and efficiency.
- Developed API code and system for the Audy dental health facility system.
- Debugged code errors for the maintenance of the backend system.

EDUWORK.ID

Yogyakarta, ID

Full Stack Developer - Bootcamp

Feb 2022- Jul 2022

- Acquired advanced knowledge and practical experience in the JavaScript Technology Stack, including MongoDB, MySQL, Express.js, React.js, and Node.js.
- Demonstrated proficiency in full-stack web development principles and technologies by successfully completing 3+ web applications, including an e-commerce website.
- Optimized React.js code and implemented best practices to improve application performance by 50%. Designed and developed over 30 RESTful APIs using Node.js and MongoDB to enhance data exchange and system reliability.

EDUWORK.ID

Yogyakarta, ID

Web Developer - Bootcamp

Jan 2022- Feb 2022

- Completed the intensive Web Developer Bootcamp program in less than one month, gaining a solid foundation in programming fundamentals, focusing on key technologies such as Javascript and PHP.
- Demonstrated a thorough understanding of fundamental programming concepts by completing a comprehensive training program in Javascript and PHP, earning exceptional recognition for my consistent dedication and high-quality work.

EDUCATION

University of Lancang Kuning

Pekanbaru, ID

Informatics Engineering / Bachelor Degree

Dec 2021

- GPA 3.28

SKILLS & INTERESTS

Skills: Full-stack web development | Javascript | Technology Stack (Node.js, MongoDB, MySQL, Loopback, Express.js, etc) | React.js | Golang | RESTful API design and development | Agile development methodologies | Web application architecture and design | Cloud computing (AWS, Google Cloud, etc.) | Version control (Git) | Database administration and management | Responsive web design | Testing and quality assurance | Problem Solving (Algorithm, Data Structure and System Design).

Interests: NodeJs Developer, ReactJs Developer, NestJs, Golang and Java technology.
